DEPARTMENT OF THE NAVY
SBIR/STTR PROGRAMS

The Department of the Navy Small Business Innovation Research and Small Business Technology Transfer Programs (DON SBIR/STTR) provide opportunities for domestic small businesses and start-ups to deliver solutions to meet naval needs through Federal Research/Research and Development (R/R&D).

These competitive awards-based programs advance innovations through three phases with an aim toward transitioning the resulting technologies to the Force/Fleet and commercialization in private markets.

Use the QR codes to discover more about each Systems Command.

NAVAIR | Naval Air Systems Command

Provides full life-cycle support of naval aviation aircraft, weapons, and systems operated by Sailors and Marines, including research, design, development, and systems engineering; acquisition; test & evaluation; training facilities/equipment; repair and modification; and in-service engineering and logistics support.

Kristi DePriest | SBIR/STTR Program Manager
navair-sbir@us.navy.mil

navair.navy.mil

NAVFAC | Naval Facilities Engineering Systems Command

Delivers best value facilities engineering and acquisition aligned to Fleet and Marine Corps priorities through five business lines, which include Environmental; Expeditionary; Asset Management; Public Works; and Design and Construction.

Tim Petro | SBIR Program Manager
timothy.j.petro4.civ@us.navy.mil

navfac.navy.mil

ONR | Office of Naval Research

Plans, fosters, and encourages scientific research in recognition of its paramount importance as related to the maintenance of future naval power, and the preservation of national security through partnerships with academia, industry, and government.

Lore-Anne Ponirakis | SBIR Program Manager
Steven Sullivan | STTR Program Manager

nre.navy.mil

NAVSUP | Naval Supply Systems Command

Conducts and enables supply chain, acquisition, operational logistics, and Sailor & Family care activities; and oversees supply chain management for material support to Navy and Marine Corps, joint and coalition partners, supply operations, and conventional ordnance.

Chris Espenshade | SBIR Program Manager
christopher.m.espenshade.civ@us.navy.mil

navsup.navy.mil

SSP | Strategic Systems Programs

Develops, produces, secures, and provides lifecycle support for the Navy's submarine-launched fleet ballistic missiles and strategic weapon system; develops conventional hypersonic weapons; and works to better the performance of these systems leading to greater efficiency and freeing resources to address emergent needs.

Jon Aspinwall and **CDR Lamberty |** SBIR Acting Program Managers **|** ssp.sbir@ssp.navy.mil

ssp.navy.mil

MCSC | Marine Corps Systems Command

Exercises contracting and technical authority for all Marine Corps ground weapon and information technology programs to equip and sustain Marine forces with the most capable and cost-effective systems for current and future expeditionary and crisis-response operations.

Jeff Kent | SBIR Program Manager
SBIR.Admin@usmc.mil

marcorsyscom. marines.mil

NAVSEA | Naval Sea Systems Command

Engineers, builds, buys and maintains ships, submarines and combat systems to meet the Fleet's current and future operational requirements through a network of command staff, headquarters directorates, affiliated Program Executive Offices (PEOs) and numerous field activities.

Jason Schroepfer | SBIR/STTR Program Manager
NSSC_SBIR.fct@navy.mil

navsea.navy.mil

NAVWAR | Naval Information Warfare Systems Command

Focuses on capable and secure communications and networks that span platforms and facilities through research & development; systems engineering; testing & evaluation; and technical, in-service, and support services.

Shadi Azoum | SBIR Program Manager
